Status/ État	Active/ Actif
Company Type/Structure:	Société à responsabilité limitée - SARL

In Monaco the société à responsabilité limitée is one of the most common legal forms.

E. Société à Responsabilité Limitée (SARL)

This is a limited liability company largely modelled on the French SARL, which was introduced in the principality in January 2007. SARLs are suitable for smaller entrepreneurs as they are flexible and relatively inexpensive. An individual must act as 'gérant' (manager) and other formalities include the requirement to have a minimum paid-up and issued share capital of EUR15,000 and a minimum of two shareholders. The company must hold an annual meeting for approval of the accounts, which must then be deposited with the commercial registry. Depending on the amount of share capital and the financial results of the company, it may be obligatory to appoint a local auditor. For non-Monegasque individuals, authorisation to set up a SARL is obtained from the Secretary of State.
